

IDAHO AND UTAH METAL OUTPUTS TAKE BIG DROP

Production of gold, silver, copper, lead and zinc showed a marked decrease in Utah and Idaho in 1919. The total value of these metals produced, as compared with 1918, fell off nearly one-half.

In Utah only 7,745,425 tons of ore were treated in 1919, as compared with 13,708,112 in the previous year. Gold production in 1919 reached only 104,454.41 fine ounces, silver, 31,849,961 ounces, copper, 124,061,807 pounds, lead, 123,829,951 pounds, and recoverable zinc, 4,431,024 pounds, according to figures made public today by the Geological Survey. The total value of the metals at the average price prevailing for each during the year was \$48,169,328, as compared to \$94,597 in 1918.

Idaho mines showed only 2,467,255 tons treated, as compared with 2,091,419 in 1918. The ore produced 24,502.59 fine ounces of gold; 5,579,049 ounces of silver; 3,123,763 pounds of copper; 122,341,898 pounds of lead, and 10,326,222 pounds of zinc. These products were valued at \$18,574,310, as compared to \$25,522,158 in 1918.

SHIPPING BOARD NEEDS MANY RADIO OPERATORS

A call has been issued by the United States Shipping Board for experienced radio operators who possess commercial licenses issued by the Department of Commerce. With the contemplated expansion of American shipping, the board emphasizes that it will be in need of trained men, and that \$125 a month and expenses will be paid to the first operator and \$100 a month and all expenses for the second operator aboard each ship.

It is pointed out that young men are offered here an unusual opportunity to see the world, and that in addition, ambitious men have ample opportunity while on board of studying navigation or engineering in their spare time, with a view to qualifying for mates and engineers.

DRUGGISTS THEMSELVES TELL WHY FOLKS SHOULD TAKE HYPO-COD TONIC AND WHY IT'S "WORLD'S BEST TONIC"

By Use of New Tonic It Is Possible For Reader to Greatly Increase Stamina, Health and Strength and Avoid Illness This Winter.

READ WHAT THESE AUTHORITIES SAY ABOUT THIS NEW, MORE POWERFUL SYSTEM TONIC

Their Personal Choice From Among All the Various Tonics In Their Drug Stores.

BIG EDUCATIONAL HEALTH DRIVE NOW ON IN PAPERS

"You should start putting yourself in the pink of physical condition now if through the long wintry days to come you want to avoid sickness, coughs, colds, fevers, chills, and kindred, wet weather ills. Every parent should look to the children's health and if frail, thin or pale, should give them a good tonic for same reason that they give them heartier, flesh and heat making foods in winter like hot cakes, meats, milk, oatmeal, etc., according to well known authority on the subject and this is verified by the signed statements published in the articles in the columns on the right. With a good tonic a person may quickly enrich the blood and they need rich red blood to withstand colds, coughs, chills and exposure during fall and winter days. With rich red blood, rosy cheeks and vigorous health a person enjoys life—works better—plays better—sleeps better and feels better all around. No better tonic in the world than a tonic with which to fortify the system against attack and increase the disease resisting vitality. It is a dollar and cents proposition of real thrifty people. They would rather feel better, avoid sickness and go through the winter without a single cough, cold, or lay-off from work than pay doctor bills. With such a tonic the appetite and digestion are revived and improved to take care of heartier foods like every one should eat three times a day in cold weather. With the tonic you get up-to-date tonic you get more good from the food you eat and in turn get more energy, vigor and strength out of your breakfast, lunch and dinner.

In the old days everybody took a tonic in the fall. Everbody remembers the Cod Liver Oil that Grandma gave us children. The trouble was that it tasted so bad folks gradually got out of the habit. Besides with a doctor just around the corner and instead of miles away and with a phone at your elbow, we have forsaken the wise old habit and relied more and more on the doctor. An ounce of prevention, however, is worth pounds of cure and with the increased cost of sickness few people can afford the luxury of a couple weeks' or more in bed.

So—in the interest of better health in the community—druggists in various parts of the country are joining in the educational health drive to cause people to use the more modern and powerful tonic which, unlike the old-fashioned kind—is pleasant to taste and agrees so perfectly with even the most delicate stomach that old folks praise it and children love it.

If everyone will start putting their systems in robust vigorous health now there will be less sickness this fall and winter and that means more production and more production means money saved—decreases in the cost of living and more joy out of working and living for everyone—rich or poor.

With the exception of druggists who for personal reason push a tonic of their own—all are enthusiastic about Earle's Hypo-Cod, a new reconstructive tonic sold by chemists to be the most powerful and effective made. It has the unqualified endorsement of the eminent authorities whose statements and names are given in the columns on the right. Lead them. Then the system should certainly not let the cost of a bottle or two of this preparation stand between them and possible health drive you. Get a bottle or two of Earle's Hypo-Cod, tonight. You'll be delighted at the quick and prompt result, which thousands say is simply remarkable.

EARLE'S PEOPLE'S DRUG STORES
8 STORES—WASHINGTON, D. C.

OUR CUSTOMERS SAY IT'S GREAT AND SO DO WE

Hypo-Cod Does the Work and It's a Pleasure To Sell a Tonic Like That.

I BUILT MYSELF UP WITH IT, TOO

RECOMMENDS IT ABOVE ALL THE OTHER TONICS

James A. Forbes, Ph. G., Says It's Tonic He Would Use If Weakly Run-down.

SPLENDID BUILDER.

The following statement from James A. Forbes, Ph. G., who for thirty years has been a leading druggist of his city and who has been mixing medicines and prescriptions all that time under the direction of some of the nation's most noted doctors, and specialists surely must convince everyone that in Earle's Hypo-Cod a real tonic is to be had. And every body unless in perfect health should take some sort of fall and winter tonic now.

"I gladly recommend this new tonic, Earle's Hypo-Cod, and I'll tell you why," declared James A. Forbes, Ph. G. "I myself became run-down and nervous and had lost my appetite so completely I never felt hungry. I dragged around feeling dull and stupid half the time and indoor work behind the prescription counter all day and every day run me down until I was badly in need of a good tonic. Like the shoemaker's son who never had any shoes—druggists are apt to be half sick all the time and never take any medicine, but finally I spent one morning and couldn't eat breakfast. I went down to the store knowing the Hypo-Cod formula, picked it out from the other tonics and took it regularly. Results were just as I expected, but a whole lot quicker than I thought. It wasn't but a few days before I felt better all over. My nerves quieted down and in a few weeks I was back to normal feeling 'fit as a fiddle.' I have never seen a medicine that does its work better as promptly, and it is the one I recommend earnestly to anyone weak or run-down or needing a building up treatment," continued this eminent authority.

Whole families can wisely take a tonic at this season of the year. Read what another authority says in article below and on the right—then drop in at the nearest store and either see the manager and ask more about Hypo-Cod or better still get a bottle and see for yourself what it will do in your own particular case. Each bottle bears name of Earle's Chemical Co., which is a guarantee of finest quality medicine.

DRUGGIST SAYS IT IS SPLENDID TONIC FOR WEAK, RUN-DOWN PEOPLE

Took Hypo-Cod Himself—Gained 22 Pounds—Feels In Perfect Health.

BEST TONIC ON THE SHELF.

"I not only have recommended Earle's Hypo-Cod to hundreds of customers and friends but have used it myself with splendid results," declared N. C. Clark, Ph. G., and manager of one of Detroit's largest downtown drug stores. "My digestion was all wrong and I had to be very particular as to what I ate at every meal. Mornings I would wake up, after I got back in the drug store again, as tired as the night before and with no appetite, strength or energy at all. My appetite was poor and I knew I couldn't think of working every day at the store unless I first built myself up with a good general tonic.

"I scanned the list of tonics in the store which number almost a thou-

PROFESSOR TANNER ASSERTS NEW TONIC HAS NO EQUAL AFTER HE ANALYZES EARLE'S HYPO-COD

More Powerful, More Readily Assimilated—An Ideal Tonic.

HE CONGRATULATES THE MANUFACTURERS

The glowing tribute paid Earle's Hypo-Cod by Professor T. B. Tanner, M. Sc., Ph. D., the famous Philadelphia Analytical and Consulting Chemist, verifies all that has been said by other authorities like Professor E. E. Early, J. Henry Scruggs, Ph. G., P. D., and a score of other well known experts.

"In view of such unqualified endorsements, a copy of Professor Tanner's following, it is no wonder that leading druggists are everywhere endorsing and introducing Hypo-Cod in preference to other tonics.

"During the past several weeks, I have had occasion to examine a number of preparations of Cod Liver Oil and various combinations. Among these preparations brought to my attention was Earle's Hypo-Cod and I feel it worthy to add my opinion to that of several of my friends and colleagues with reference to the merits of Hypo-Cod.

"I guess and thought of mixing tomatoes and cod liver oil myself, but concluded that Earle's Hypo-Cod was nearer to what I needed than anything else and so it was. Right away I began reviving my old appetite. My digestion improved until everything I ate tasted good and agreed with me. Then I began picking up strength and weight and in a little while I was back on my feet. I increased the dosage and in a few days I was weighing over 100 now and never felt better in my life. Everybody here in Detroit knows what Hypo-Cod is and we, of course, know the formula and the company which makes it. I heartily recommend Earle's Hypo-Cod both for quick and for permanent results. We all recommend Hypo-Cod in preference to other tonics here at the store," continued this druggist.

Instead of waiting until you get sick and especially at this season of the year it is wise to take a good fall and winter tonic. It builds you up, increases the digestive vitality, enriches the blood to withstand cold, fortifies the lungs to ward off bronchitis, colds, and asthma, and conditions and stimulates the appetite and digestion to take care of the heavy heart making foods like meats, hot cakes, etc. Drop in at the nearest People's drug store and get a couple bottles. The cost is trifling compared with results.

EARLE'S TASTELESS HYPO-COD
WITH WILD CHERRY MALT AND IRON
AVAILABLE STRENGTH-CREATING RECONSTRUCTIVE TONIC

POWERS CONTAINS THE MEDICINAL AND BUILDING PRINCIPLES OF PURE COD LIVER OIL, ENRICHED WITH VITAMINS AND MINERALS, SELECTED FROM THE FINEST FISHES, AND COMBINED WITH THE MOST PERFECT FORMULA OF THE HYPOTHYROIDISM, AND OTHER DISEASES OF THE BLOOD AND DIGESTIVE ORGANS.

RECONSTRUCTIVE TONIC, NUTRITIVE, AND DIGESTIVE. IT ENRICHES THE BLOOD, IMPROVES THE DIGESTION, AND STIMULATES THE APPETITE. IT IS A TONIC FOR THE WEAK, THE RUN-DOWN, THE OVER-EXHAUSTED, AND THE OVER-HEATED. IT IS A TONIC FOR THE YOUNG, THE OLD, AND THE MIDDLE-AGED. IT IS A TONIC FOR THE MAN, THE WOMAN, AND THE CHILD. DISTRIBUTED ONLY BY THE EARLE CHEMICAL CO., WHEELING, W. VA.

THREW GOODS TO PALS FROM EXPRESS TRAIN

WELLINGTON, N. Y., Sept. 24.—Merchandise valued at between \$500 and \$100,000 was stolen from a moving westbound Erie express train near here yesterday. One car was entirely cleared out, supposedly by a man working from the inside, who threw the goods from the car door, to be gathered by confederates and carted away in automobiles.

About \$2,000 worth of fur coats, women's apparel and silk were recovered by Patrolman Charles Nelly, of the Wellington police, and Conductor Henry, of a freight train, who saw some of the bundles thrown from the fast moving express.
